

# Notes of Real Analysis

Renhe W.

## Contents

1	Introduction	2
2	Sequences and Limits	2
3	Bounded sequence and Unique Limits	2
4	Theorem on Limits	2
5	Sandwich Theorem	2
6	Supremum and Infimum	2
7	Cauchy Sequences and	2
8	Example Calculation	2
9	Subsequences	2
10	Bolzano	2
11	Superior and Limit	2
12	Examples for Limit	2
13	Open, Closed and Compact Sets	2

## 1 Introduction

This note is to provide an easy understanding of Real Analysis, and to continue to understand and work on more specific areas. 参考 YouTube 上<https://www.youtube.com/@brightsideofmaths>博主的教学视频整理的学习笔记。

## 2 Sequences and Limits

### 3 Bounded sequence and Unique Limits

#### 4 Theorem on Limits

#### 5 Sandwich Theorem

#### 6 Supremum and Infimum

#### 7 Cauchy Sequences and

#### 8 Example Calculation

#### 9 Subsequences

#### 10 Bolzano

#### 11 Superior and Limit

#### 12 Examples for Limit

### 13 Open, Closed and Compact Sets
